

**NAME**

`curl_slist_free_all` - free an entire curl\_slist list

**SYNOPSIS**

```
#include <curl/curl.h>
```

```
void curl_slist_free_all(struct curl_slist *list);
```

**DESCRIPTION**

`curl_slist_free_all()` removes all traces of a previously built curl\_slist linked list.

**RETURN VALUE**

Nothing.

**SEE ALSO**

`curl_slist_append(3)`,
