3.1 C++

The diagram illustrates a complex set of dependencies and relationships between various software components. The components are represented as nodes, and their interactions are shown through directed edges (arrows) and undirected lines.

- Top Level:** 'C++' is at the top left, with a colon ':' to its right.
- Second Level:** '1.' and '2.' are positioned below 'C++'. '1.' has an arrow pointing to 'C++'. '2.' has an arrow pointing to 'Flash'.
- Third Level:** 'MVC' is to the left of 'Flash'. 'Flash' has an arrow pointing to 'MVC'. 'Flash' also has an arrow pointing to 'ActionScript'.
- Fourth Level:** 'ActionScript' is below 'Flash'. It has an arrow pointing to 'Scaleform'.
- Fifth Level:** 'Scaleform' is below 'ActionScript'. It has an arrow pointing to 'Scaleform Direct Access API (Menu Kit)'. 'Scaleform' also has an arrow pointing to 'HUD'.
- Sixth Level:** 'Scaleform Direct Access API (Menu Kit)' is below 'Scaleform'. It has an arrow pointing to 'MMO'. 'Scaleform Direct Access API (Menu Kit)' also has an arrow pointing to 'UI'.
- Seventh Level:** 'UI' is below 'Scaleform Direct Access API (Menu Kit)'. It has an arrow pointing to 'HUD'.
- Eighth Level:** 'Direct Access API' is below 'UI'. It has an arrow pointing to 'ActionScript'.
- Ninth Level:** 'ActionScript' is below 'Direct Access API'. It has an arrow pointing to 'UIComponent'.
- Tenth Level:** 'UIComponent' is below 'ActionScript'. It has an arrow pointing to 'UIComponent'.
- Eleventh Level:** 'UIComponent' is below 'UIComponent'. It has an arrow pointing to 'UIComponent'.

The diagram shows a hierarchical structure where components at higher levels depend on components at lower levels. The relationships are complex, with many components having multiple dependencies and being depended upon by others.
